

BIKE PACKAGING

Take a ride on the safe side

By HORNA GmbH Verpackungen

**# TAKE A
RIDE ON THE
SAFE SIDE**

COMPANY PROFILE

As part of **HORNA GmbH Verpackungen**, we have made a name for ourselves with **Bike-Packaging** in the field of bicycle packaging for storage and shipping in Europe and count many well-known manufacturers among our customers.

With our in-house developed and **European patented** products **RUFFBoXX® REGULAR**, **RUFFBoXX® COMPACT** and **RUFFBoXX® CARGO** we set new standards in terms of safe and sustainable bicycle and e-bike transport packaging.

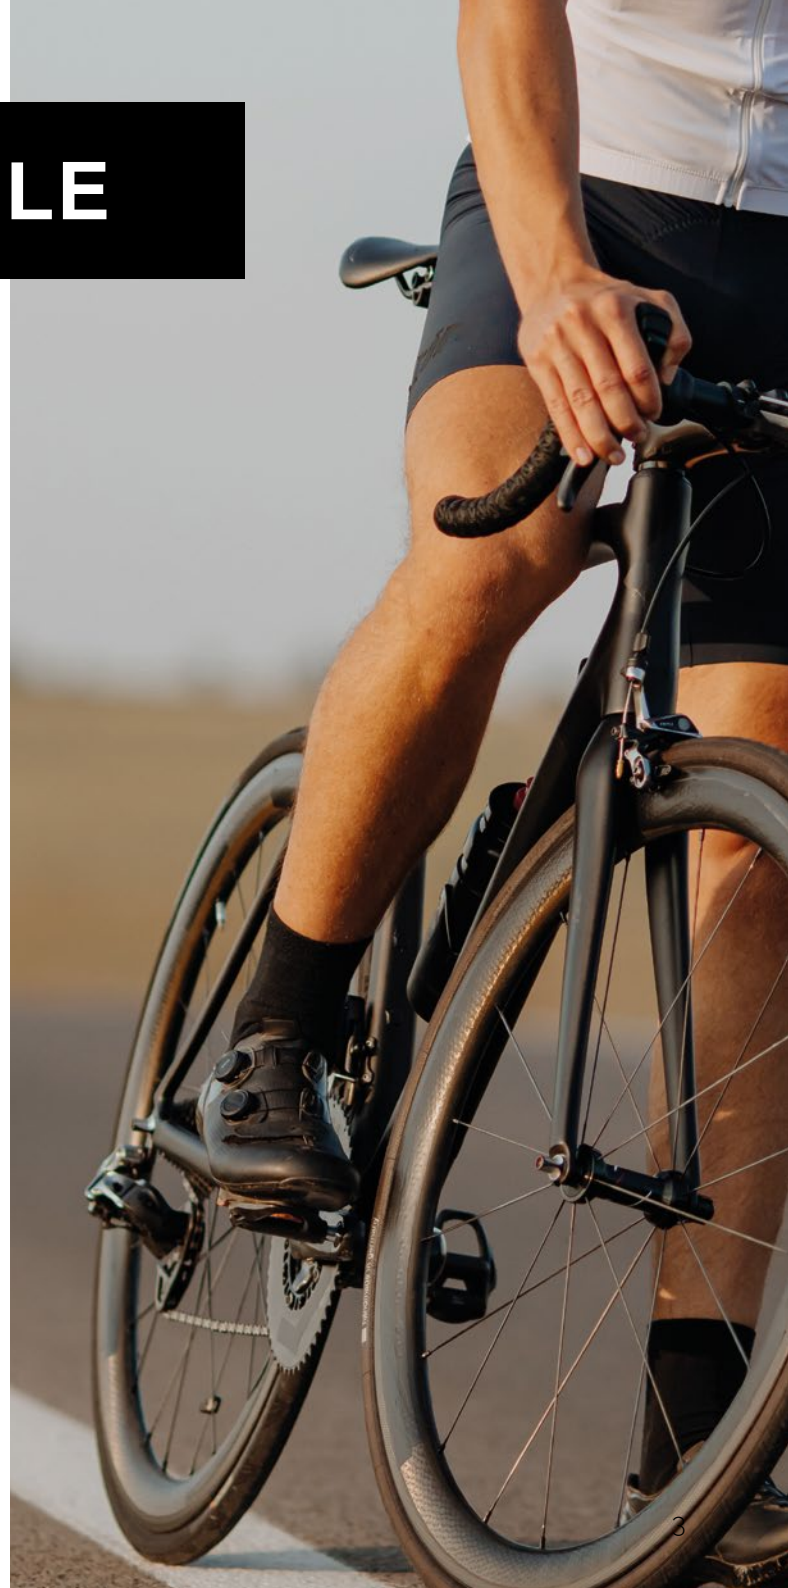

Your service provider for packaging material

HORNA GmbH Verpackungen is a family-run, medium-sized packaging wholesaler with more than 40 years of experience in the packaging industry.

Whether standard solutions or the individual implementation of your requirements around the topics of packaging, packing lines and machines - as a system and component supplier we take on every challenge and offer you the perfect solution!

In many projects, we are already brought on board during product development in order to then, at the end of the chain, deliver the optimal inner and outer packaging. We also design the actual packing process to be economical and ergonomic.

HORNA has been a company with financial climate contribution since 2020.

BICYCLE PACKAGING

We deliver bicycle boxes in various designs, for all types of bicycles - tailored to your needs and for your purposes.

Whether bicycle shipping boxes, bicycle sliding packaging, e-bike packaging, mountain bike packaging, cargo bike packaging or bicycle travel cases - we will provide the optimal suitable packaging for your products.

RUFFBOXX® REGULAR

Our **European patented RUFFBoXX® REGULAR** bicycle packaging is the perfect solution to protect your bicycle for shipping and storage in no time at all. The well thought-out and sustainable design enables quick and effortless packing - without having to dismantle the bike.

Slide the bike into the rail and secure it with the wheel stabilizer insert - so it remains secure and stable on its own. Place the sturdy corrugated cardboard box over the bike and rail and secure it with the reusable twist locks made from bio-based plastics. You can optionally use seals for additional security. Place the stabilizing insert for handlebar and saddle on the bike and then seal the box with adhesive tape. That's it!

#RIDERUFF

Inner dimensions of the **RUFFBOXX® REGULAR** (length x width x height): 2.010 mm x 240 mm x 1.250 mm

Outer dimensions of the **RUFFBOXX® REGULAR** (length x width x height): 2.017 mm x 247 mm x 1.260 mm

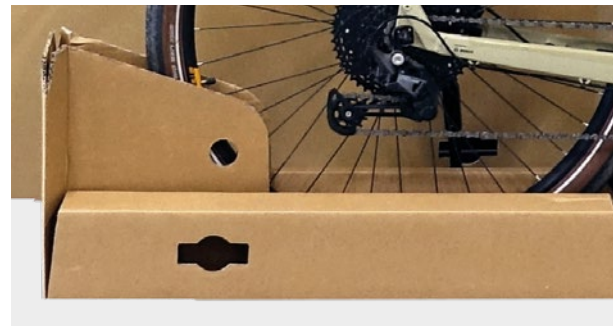

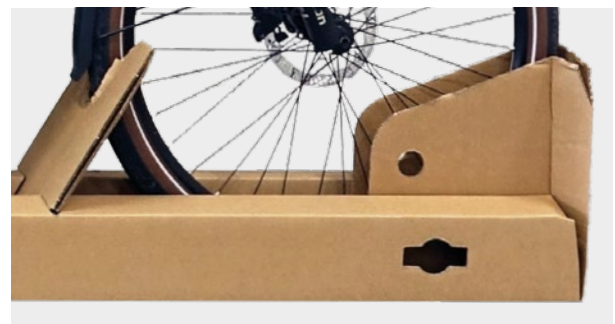

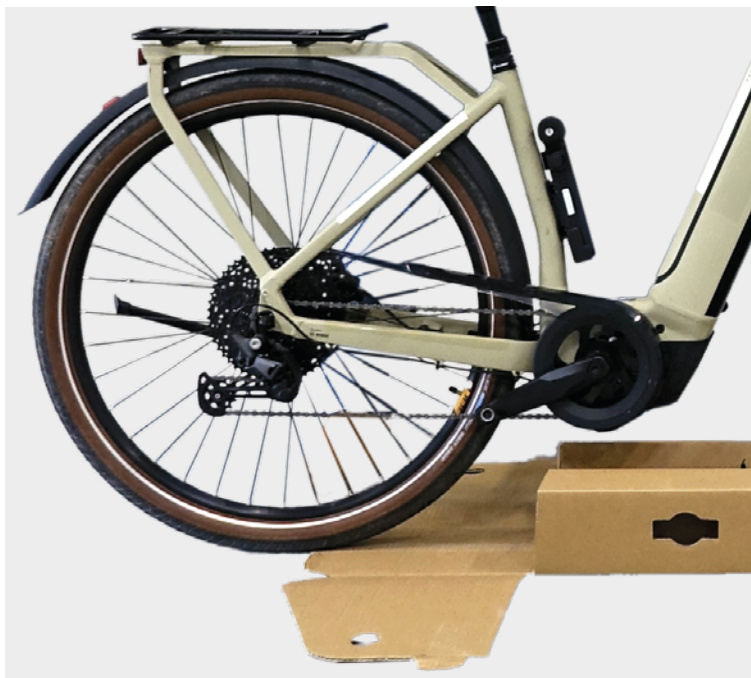

You can find all bike packaging online at:

RUFFBOXX[®] COMPACT

EUROPEAN
PATENTED
PATENT

Our **European patented** bicycle packaging, **RUFFBOXX® COMPACT**, has been specially developed for the space-saving and safe transportation (and/or storage) of your bike. Thanks to its innovative and compact design, it combines maximum protection with maximum convenience when packing and shipping.

Remove the front wheel and tilt the handlebars. Slide the bike into the integrated rail and secure it to the fork/axle using the axle mount. This ensures that your bike is secure and stable in the box. Place the stabilizing insert for handlebars and saddle on the bike and stow it in the bottom rail together with the dismantled wheel. Wrap the bike box around the rail and secure it with the reusable twist locks made from bio-based plastics. For additional security, you can optionally seal the box with seals. There is space for documents and other accessories in the optional post box and accessory box. Seal the box with adhesive tape and your bike is ready for transportation!

Inner dimensions of the **RUFFBOXX® COMPACT** (length x width x height): 1.833 x 289 x 932 mm

Outer dimensions of the **RUFFBOXX® COMPACT** (length x width x height): 1.845 x 295 x 935 mm

The assembly instructions are hidden behind the QR-Code.

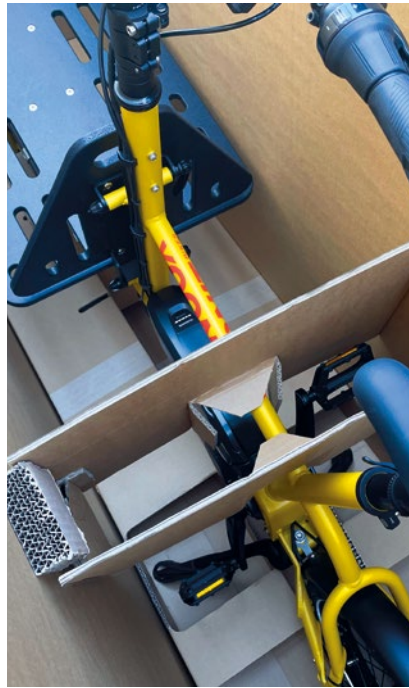

RUFFBOXX® CARGO

With our innovative, **European patented** cargo bike packaging, the **RUFFBOXX® CARGO**, you pack cargo bikes quickly and safely.

The cargo bike (Suitable for almost all cargo bikes - transverse positioning of the handlebar necessary depending on the width) is conveniently pushed into the rail folded by means of a plug-in system and fixed with a wheel stabilization insert. Offset recesses for the stand as well as for the front wheel lock guarantee a perfect fit for almost any cargo bike. The solid corrugated cardboard box is put over the bicycle and the rail and subsequently secured with reusable fasteners. A stabilizing insert is placed on the cargo wheel from above and fixed with self-adhesive corrugated cardboard blocks. The carton is then sealed with adhesive tape - **#RIDE RUFF!**

Inner dimensions of the **RUFFBOXX® CARGO** (length x width x height): 2.340 x 545 x 1.180 mm

PROTECTION AND PADDING

PRODUCTS

SELF-ADHESIVE CORRUGATED CARDBOARD

The self-adhesive corrugated cardboard protects the frame and the bicycle axles during transport.

FOAM PARTS

Foam parts are the perfect product to protect the frame and the bicycle fork from pressure or strokes.

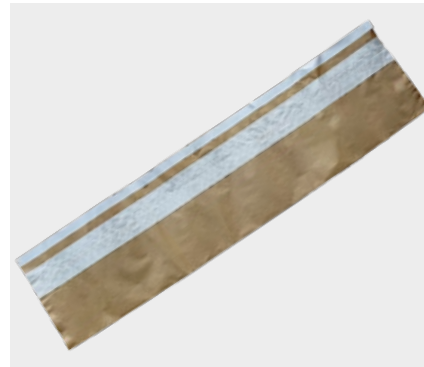

Especially for carbon and aluminum frames.

HANDLEBAR PROTECTION COVER

The handlebar protection cover, with extra large bubbles, is simply put over the handlebar and fixed with cable ties or adhesive crepe tape.

HANDLEBAR PROTECTION BAG

The handlebar protection bag consists of a two-layer paper bag with cellulose coating, including a side adhesive strip with a practical self-adhesive closure.

PRODUCTS

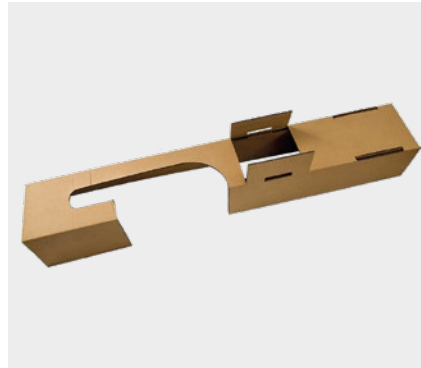

TRIANGLE

The triangle fixes the front and the rear wheel optimally in the bicycle cardboard box. A must-have for heavy bikes such as e-bikes.

Available for narrow and wide wheels.

STABILIZATION INLAY FOR HANDLEBAR AND SADDLE

The stabilization inlay is used to stabilize the handlebar and saddle of the bicycle inside the box. The bike is supported sideways and upwards.

STABILIZATION INLAY FOR REAR WHEEL

The stabilization inlay ensures a stable stand of the bicycle in the bicycle cardboard box.

CORRUGATED CARDBOARD PAD

The self-adhesive corrugated cardboard pads can be used universally (hub protection, fixation of the bike inside the box) and provide the best protection for all of your bicycle products.

PRODUCTS

ACCESSORY BOX WITH CUSHION MATERIAL

This accessory box includes a roll of adhesive crepe tape, self-adhesive corrugated cardboard cuts, foam foil bags and two sizes of bubble bags.

AIRWAVE PAPERWAVE

AirWave PaperWave - the sustainable air cushion solution to protect your products. Suitable for void fill and as an inter-layer. Consisting of 80% renewable raw materials, 100% recyclable via repulping and 100% home compostable and biodegradable!

BUBBLE BAGS

Bubble bags with foam lamination are the optimal surface protection for the cushioning of your bicycle products and to prevent scratches.

They have high strength, no tearing or bursting of the bubbles.

SELF-ADHESIVE BUBBLE WRAP

The self-adhesive bubble wrap is perfect for the protection of frames and sensitive surfaces. The blanks are slightly self-adhesive. You don't need extra sealing material.

Guaranteed to be removed without leaving any residue.

EQUIPMENT BOXES

PRODUCTS

IMPELLER BOX - HORIZONTAL

Horizontal impeller boxes for wheels are suitable for shipping one or two rims/wheels.

IMPELLER BOX - VERTICAL

In this vertical impeller box, the rims or complete wheels are securely fixed between two for this purpose specially designed corrugated cardboard holders.

Extra accessories can be attached to the holes with cable ties.

DANGEROUS GOODS BOX

For the shipment of rechargeable batteries, such as for e-bikes, a suitable dangerous goods box is required by law.

Different sizes are available on request.

SPEEDBOX

The Speedbox saves time and money due to the automatic bottom, the self-adhesive closure and the tear-open-strip.

Available in 6 sizes.

SEALING MATERIAL

PRODUCTS

ADHESIVE TAPE

With our high-quality adhesive tapes you can seal any box.

Our own brand PackSynergy Tape® is also available with advertising print from an order quantity of 36 rolls.

TAPE DISPENSER

Tape dispensers are available in various versions - always suitable for the respective adhesive tape.

ADHESIVE CREPE TAPE

Our adhesive crepe tape is an all-purpose tape for bundling, wrapping and fixing.

It is easy to unroll and tear off.

CABLE TIES

Cable ties are available in transparent or black as well as in different lengths.

They are suitable for all applications and packaging purposes.
